NICOLÁS SUÁREZ

ABOUT ME

I would describe myself as a goal focused and detail oriented person, the process of adjusting to new environments for me is not a problem. I have worked on react applications such as e-commerces, portfolios, wikis (by API consuming) and full web pages for small businesses.

MY EXPERIENCE

ADMINISTRATIVE ASSISTANT

2016 - current job | Suhena Zomac S.A.S.

- Leadership rol on manufacturing process.
- Customer service.
- Strategic business management.

FULL STACK SOFTWARE DEVELOPER

2022 - current job | Freelancer

- Creation of a full website using:
- React js, react-router, redux, axios, etc.
- Node js, express, MCV, cors, etc.

PERSONAL PROJECTS

POKEDEX

- This is a page that consumes an API for pokemon characters and displays them with different search capabilities.
- React, React router dom, CSS, redux.
- <https://nicolaspokedex.netlify.app/>

RICK & MORTY WIKI

- Here I used an API to create a wiki that can be used to display information about the famous series Rick & Morty.
- React, React router dom, CSS, redux.
